**Subject:** Resolution 2038

RECEIVED  
OCT 29 2007  
Itavalli County Commissioners

Dear Commissioners,

Since we will be out of town on the date of the hearing we are writing to let you know of our opposition to Resolution 2038. The extension of the interim law would only add to sprawl and would have no redeeming effect on our county.

Please do not extend this law called 2 for 1 and instead require developments to have systems to take care of their effluent and their drinking water so that we can preserve more open space, allow cluster development and keep the prices of houses affordable.

Thank you.
